

The background is a deep blue with a microscopic theme. It features several out-of-focus, circular structures resembling cells or microorganisms. In the center, there is a more detailed, glowing blue and white structure that looks like a complex molecular or cellular formation.

ARENA

PHARMACEUTICALS

We are building a vibrant, sustainable
company with the goal of delivering
transformational medicines.

Arena Pharmaceuticals Clinical Trials

IBD

ELEVATE

NOW ENROLLING

RISE UP AGAINST ULCERATIVE COLITIS (UC)

ELEVATE UC is a worldwide, Phase 3 clinical program (consisting of 3 trials) evaluating the efficacy and safety of once-daily, oral etrasimod in patients with moderately to severely active UC.

Etrasimod Etrasimod is an investigational once-daily, oral S1P receptor modulator designed to selectively target S1P1, S1P4, and S1P5. Preclinical studies have shown no observed activity for S1P2 and S1P3 at therapeutic doses.

CULTIVATE

NOW ENROLLING

ADDRESSING THE ROOT OF CROHN'S DISEASE (CD)

CULTIVATE is a clinical program evaluating the efficacy and safety of once-daily, oral etrasimod in patients with CD.

IBS PAIN

CAPTIVATE

TAKE A STAND AGAINST IBS PAIN

CAPTIVATE is a Phase 2 clinical program evaluating the efficacy and safety of oral olorinab in patients experiencing abdominal pain associated with IBS.

Olorinab is an investigational, oral, peripherally acting, highly selective, full agonist of the cannabinoid receptor 2.
